

This Washington Post-Kaiser Family Foundation poll was conducted online and by telephone July 9-Aug. 5, 2019 among a random national sample of 2,293 adults age 18 and over as well as 629 teenagers ages 13-17. The adult sample includes oversamples in the Southwest, Mountain West/Midwest, New England and Southeast/Gulf Coast regions. Results from the full survey have a margin of sampling error of plus or minus three percentage points among adults and plus or minus five percentage points among teens. The sample was drawn through the AmeriSpeak panel, the probability-based panel of NORC at the University of Chicago. The national and teen samples are weighted to match the geographic and demographic makeup of the U.S. overall, according to Census Bureau data. Parentheticals within questions indicate clauses that were randomly rotated for respondents. Full methodological details at the end of this document.

Unwtd N: Unweighted number of interviews for a given group.

Notes: (1) Table percentages may not add to 100 percent due to rounding. (2) Values less than 0.5 percent are indicated by an asterisk (\*). (3) "vol." indicates that a response was volunteered by respondent and not an explicitly offered choice.

This questionnaire was administered with the exact questions in the exact order as appears in this document.

NEWS\_ATT. (AMONG TEENS) How much attention do you usually pay to what's going on in the news?

		----- Attention -----			----- Less attention -----		
	NET	A lot of attention	Some attention	NET	Not much attention	No attention at all	No opinion
8/5/19	67	14	53	33	26	7	*

TRUMPAP. Do you approve or disapprove of the way Donald Trump is handling his job as President?

	Approve	Disapprove	No opinion
8/5/19 Adults	37	63	*
8/5/19 Teens	35	64	1

Q0. (AMONG ADULTS) Do you approve or disapprove of the way President Trump is handling each of the following? (items a-f scrambled)

8/5/19 -- Summary table

	Approve	Disapprove	No opinion
a. The economy	50	49	1
b. Health care	36	61	2
c. Immigration	37	62	1
d. Climate change	30	67	3
e. Renewable energy	36	61	3
f. Gun policy	41	57	2

Q1. How important are the following issues to you personally? (items a-f scrambled)

8/5/19 -- Summary table among adults

	--- More important ---			----- Less important -----			No opinion

h. The Democratic Party	56	17	25	2	1,170
i. President Trump	66	5	27	3	1,170

\*Items b and c asked of full sample; items a and d-i asked of half sample

8/5/19 -- Summary table teens

	Doing too little	Doing too much	Doing the right amount	No opinion
b. The U.S. government	74	9	17	*
f. Individuals in your community	68	6	25	*

Q25. Which political party do you trust to do a better job handling climate change? ("The Democrats" and "The Republicans" rotated)

	The Democrats	The Republicans	Neither	Both equally	No opinion
8/5/19 Adults	38	17	35	10	1
8/5/19 Teens	31	17	36	15	*

Q27b. (AMONG ADULTS) Do you support or oppose the U.S. pulling out of the Paris climate agreement, or don't you know enough to say?

	Support	Oppose	Don't know	No opinion
8/5/19	16	36	48	*

Q27c. (AMONG ADULTS) Would you support or oppose a plan to relax carbon emissions standards for coal-fired power plants, or don't you know enough to say?

	Support	Oppose	Don't know	No opinion
8/5/19	19	38	43	1

Q29a. (AMONG ADULTS; ASKED OF HALF SAMPLE, Unwtd N=1,189) The federal government issues permits to allow energy companies to extract fossil fuels such as oil, natural gas and coal on some land owned by the federal government. Do you think the federal government should (increase) or (decrease) the amount of fossil fuel extraction that is allowed on public lands, or should it stay as it is?

	Increase	Decrease	Stay as it is	No opinion
8/5/19	13	51	32	3

Q29b. (AMONG ADULTS; ASKED OF HALF SAMPLE, Unwtd N=1,104) The federal government allows energy companies to drill for fossil fuels such as oil and natural gas in some waters off the coast of the U.S. Do you think the federal government should (increase) or (decrease) the amount of fossil fuel extraction that is allowed in coastal waters, or should it stay as it is?

	Increase	Decrease	Stay as it is	No opinion
8/5/19	14	53	32	1

Q30a. (AMONG ADULTS) Would you support or oppose your state government setting stricter fuel efficiency standards for cars and trucks than the federal government?

	Support	Oppose	No opinion
8/5/19	67	31	2

Q30b. (AMONG ADULTS) Would you support or oppose your state government setting more ambitious targets than the federal government for the amount of energy that must come from renewable sources?

	Support	Oppose	No opinion
8/5/19	71	26	3

Q26. Do you think President Trump's policies have increased or decreased the country's risk for long-term negative effects from climate change, or haven't his policies made much of a difference?

	Increased the country's risk	Decreased the country's risk	Haven't made much difference	No opinion
8/5/19 Adults	44	12	43	2
8/5/19 Teens	40	16	44	1

Q27a. (AMONG ADULTS) An Obama administration rule requires car companies to greatly increase the fuel efficiency of cars and trucks by 2025. President Trump has a plan to freeze fuel efficiency standards close to their current level. Do you support or oppose Trump's plan?

	Support Trump's plan	Oppose Trump's plan	No opinion
8/5/19	31	66	3

Q32. (AMONG ADULTS) Would you support or oppose each of the following ways to pay for policies aimed at reducing greenhouse gas emissions in the U.S.? (response options rotated; items a-f scrambled)

8/5/19 -- Summary table

	----- Support -----			----- Oppose -----			No op.
	NET	Strongly	Somewhat	NET	Somewhat	Strongly	
a. A \$2 monthly tax on U.S. residential electric bills	47	17	29	51	19	33	2
b. Raising taxes on wealthy households	68	44	24	31	13	18	1
c. Increasing the federal gasoline tax by 10 cents per gallon	35	11	23	64	24	40	1
d. A \$10 monthly tax on U.S. residential electric bills	27	6	21	71	22	49	2
e. Raising taxes on companies that burn fossil fuels like coal, natural gas, and oil, even if that may lead to increased electricity and transportation prices	60	32	28	38	17	21	2
f. Increasing the federal gasoline tax by 25 cents per gallon	25	7	18	74	24	50	1

Q32G. (AMONG ADULTS) Would you support or oppose adding to the national debt in order to pay for policies aimed at reducing greenhouse gas emissions in the U.S.? (response options rotated)

## Methodology

The Washington Post-Kaiser Family Foundation Survey Project is a partnership combining survey research and reporting to better inform the public. The Post-KFF Climate Change Survey, the 34th in the series, was conducted with a probability-based sample of 2,293 adults ages 18 and over and 629 teens between the ages of 13 and 17. Interviews were administered online and by telephone from July 9 through August 5, 2019 in English and Spanish.

NORC at the University of Chicago conducted sampling, interviewing, and tabulation for the survey using the AmeriSpeak Panel, a representative panel of adults age 18 and over living in the United States. AmeriSpeak Panel members are recruited through probability sampling methods using the NORC National Sample Frame, an address-based sampling frame. Panel members who do not have internet access complete surveys via telephone, and internet users complete surveys via the web (for the current study, 303 adults and 8 teens completed via phone; 1,990 adults and 621 teens via web). In order to allow for separate regional analysis, adult panelists living in the following regions were selected at disproportionately higher rates: Southwest (Arizona, New Mexico, Nevada, Utah, Colorado); Upper Mountain West/Midwest (Minnesota, North Dakota, South Dakota, Montana, Idaho); New England (Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island); and Southeast (Florida, Georgia, South Carolina, North Carolina, Alabama, Mississippi, Louisiana, Texas gulf coast counties: Orange, Jefferson, Chambers, Galveston, Harris, Brazoria, Matagorda, Jackson, Calhoun, Victoria, Refugio, Aransas, San Patricio, Nueces, Kleberg, Kenedy, Willacy, Cameron).

Fully enrolled teens (i.e., those for whom NORC has obtained parent consent, teen assent, and a complete teen profile) were eligible for sampling and recruitment from NORC's AmeriSpeak Teen Panel, a probability-based panel of teens recruited via parents in the AmeriSpeak adult panel.

The combined results for teens and adults have been adjusted to weight oversampled geographic areas back to their accurate share of the adult population and to account for systematic nonresponse along known population parameters.

For adults, the first weighting stage made adjustments to account for the regional oversampling and for differential nonresponse to the survey screening interview. In the second weighting stage, the sample was adjusted to match known demographic distributions of the U.S. population using the following parameters: age, sex, education, race/ethnicity, and Census Division. Interviews in the oversampled regions were also weighted to match demographics within those regions. Region-level population benchmarks were obtained from the U.S. Census Bureau's American Fact Finder for race/ethnicity and from the U.S. Census Bureau's 2017 American Community Survey (ACS) for all other benchmarks.

The teen sample was weighted using a similar procedure, except that there was no regional oversampling for the teen sample so no oversample adjustment was needed. Demographic benchmarks for teens were obtained from the 2017 ACS for age, sex, parents' highest education, race/ethnicity, and Census Division.

The margin of sampling error including the design effect for the full sample is plus or minus 3 percentage points for adults and 5 percentage points for teens. All statistical tests of significance account for the effect of weighting. For results based on other subgroups, the margin of sampling error may be higher. Sample sizes and margins of sampling error for other subgroups are available by request. Note that sampling error is only one of many potential sources of error in this or any other public opinion poll.

This questionnaire was administered with the exact questions in the exact order as appears in this document; question numbering may not be sequential. If a question was asked of a reduced base of the sample, a parenthetical preceding the question identifies the group asked.

The Kaiser Family Foundation and The Washington Post paid for the survey and

representatives of The Washington Post and the Kaiser Family Foundation worked together to develop the survey questionnaire and analyze the results. Each organization bears the sole responsibility for the work that appears under its name. The project team from the Kaiser Family Foundation included: Mollyann Brodie, Ph.D., Liz Hamel, Lunna Lopes, and Cailey Muñana. The project team from The Washington Post included: Scott Clement and Emily Guskin. Both The Washington Post and the Kaiser Family Foundation Public Opinion and Survey Research team are charter members of the [Transparency Initiative](#) of the American Association for Public Opinion Research.
